Technology Policy

At Wildwood, we recognize that students may occasionally need to use personal technology such as cell phones, smartwatches, earbuds, or other devices during school hours.

However, to maintain a safe and professional environment, all technology use must align with the following guidelines:

Students are not allowed to have cell phones, wireless communication devices, and other electronic devices in school.

We understand that many students travel long distances to get to and from school and may need their devices for the bus ride; while at school, electronic devices need to be put away.

Parents who wish to contact their child during the school day should either call their child's Social worker or the main school office at 518.836.2200.

Students who need to make a phone call may do so using an office phone, with the permission of classroom staff. Staff must be present during the phone call.

Staff should refer to the Wildwood Employee Handbook (pg. 25)
